PIERC埃 LAW GROUP LLP is a full service boutique entertainment law firm established in 1996 in Beverly Hills, California. The Firm specializes in representing independent filmmakers and television production companies, as well as counseling a wide variety of creative individuals and entities in the areas of production counsel, internet/new media matters, intellectual property matters, labor & employment issues unique to the Entertainment Industry, securities law, general business and corporate law matters, and producers’ representation services. The firm engages in both transactional issues and litigation with an emphasis on counseling for litigation avoidance.

Our unpaid 1L internships provide a unique opportunity for qualified first year law students to experience all aspects of our firm’s practice, including researching novel entertainment law related issues, completing formation documents for corporate entities, drafting agreements for film producers and productions, drafting motions and briefs for entertainment law related litigation and other matters that may arise, as well as the ability to observe actual contract negotiations and participate in negotiation strategies.

Interns are provided with parking, lunches and firm activities throughout the summer such as outings to a comedy club, film screenings and Dodgers games.

We are not looking for law students who merely have an interest in entertainment law; we are looking for students who can take initiative, have strong legal reasoning and writing skills, and who thrive in a high energy environment.

Interested first year students should forward a resume, cover letter and transcript to hiring@piercelawgroupllp.com.
